Languages

English (Full Professional)

Japanese (Elementary)

Certifications

Test Specialist - Performance Testing (Certified by L&T Infotech)

AI Coder: Complete ClaudeCode & Coding Agents Course

NCFM: Financial markets: A Beginner's Module

AI Engineer Agentic Track: The Complete Agent & MCP Course

Honors-Awards

On the spot award

Above and Beyond award for the quarter

Global Spirit Hero

Anamika Kumari Roy

General Manager @ Vodafone | Head of Performance Engineering
Pune Division, Maharashtra, India

Summary

I'm a Senior Performance Engineering leader and architect with 18+ years driving enterprise-scale performance strategy and leading teams of 100+ across banking, telecom, insurance, healthcare, and ecommerce. My career has centered on one goal: fast, reliable performance testing and engineering with minimal manual overhead and maximum quality. Automation-first is my default mode — over the years I've architected numerous automation frameworks across the performance testing lifecycle, from flagship builds like DevOps pipeline for test execution & reporting, AI/ML-enabled test analysis and reporting framework, and agentic LLM-powered Performance Investigation & RCA platform, to the many smaller automations and day-to-day tooling that quietly remove friction. Also, applied chaos engineering practices to proactively surface resilience gaps, and I've stayed hands-on throughout, often the one solving the toughest technical issues my teams faced — all in service of continuous performance improvement and a faster, more reliable experience for end customers. Looking ahead, I want to lead the modernization of performance and reliability engineering at scale — building AI-native platforms and automation-first practices that make organizations faster, more resilient, and less dependent on manual effort.

Experience

Vodafone

9 years 3 months

General Manager

July 2023 - Present (3 years 3 months)

India

Deputy General Manager Information Technology

January 2020 - June 2023 (3 years 6 months)

Senior Manager

July 2017 - December 2019 (2 years 6 months)

Citi

Assistant Vice President Information Technology

June 2015 - June 2016 (1 year 1 month)

Pune, Maharashtra, India

Leading Performance engineering team for Citibank CCET group

L&T Technology Services Limited

Test Lead

February 2014 - June 2015 (1 year 5 months)

Pune, Maharashtra, India

Leading Performance engineering team for L&T client - Citibank CCSMT group

HCL Technologies

Associate Project Manager

June 2011 - February 2014 (2 years 9 months)

Noida Area, India

Performance Test Lead in multiple projects - GSI Commerce, Fonterra, Macquarie

HTC Global Services

Test Lead

October 2010 - June 2011 (9 months)

Gurgaon, Haryana, India

Test Lead in United Health Group

Tata Consultancy Services

Assistant Systems Engineer

August 2006 - September 2010 (4 years 2 months)

Gurgaon, Haryana, India

Developer in C and Unix for telecom components, test automation in visual C++
+, Performance testing for British Telecom

Education

Vellore Institute of Technology

Bachelor of Technology - BTech, Telecommunications

Engineering · (2002 - 2006)

Kendriya Vidyalaya

Matriculation, English Maths Science · (1990 - 2000)

Delhi Public School - R. K. Puram

Senior Secondary, PCM with Computer Science · (2000 - 2002)
